

these clients holding many large family functions and special occasions for years to come.

The pool also features a swim-up bar that puts outdoor dining on a whole other level. No more getting out of the pool to quench your thirst. Kids and adults can swim for hours and stay well hydrated without ever having to leave the pool. The swim-up bar is also perfect for night-time entertaining, with plenty of seats for sitting and relaxing in the water. With the bar placed strategically undercover, it becomes an outstanding feature that can be used all year round.

This well-designed family pool also contains a spa that overflows into the

toddlers' shallow area. The warm water spills over the edges of the spa, making the shallow pool the ideal temperature for little kids and ensuring that it is easy for you to relax while you watch over them.

The team at Naughtons Pools and Spas made sure that this pool was up-to-date with all the latest in pool technology with a connect system by Hurlcon that features an LCD touch screen that operates everything in the pool — from the colour changing LED light to spa pump and blower. The pool and spa are also solar and gas heated with Paramount in-floor cleaning, allowing the clients more time and energy to spend on enjoying their newly built pool.

## Backyard resort

*Whether it is for entertaining or family fun, this pool has it all*

Some of the best summer memories are made from the comfort of your own backyard, right by the swimming pool. Whether it's splashing around with the kids, teaching the young ones how to swim or relaxing on a cool summer night, swimming pools can provide entertainment and fun for all family members. This well-designed pool by Naughtons Pools and Spas is the definition of family fun. From toddlers to adults, family members of all ages can enjoy this spectacularly designed outdoor area.

The owners of this pool are a large family with children and grandchildren and they requested a pool large enough to cater for quite a few people. Naughtons Pools and Spas designed this pool with all ages in mind, specifically including a shallow area for toddlers to play in.

The deeper area of the pool fits the whole family and provides a spectacular view overlooking the Murray River. The pool is 15m x 5m and is the focal point of the backyard. The spacious pool area will see

Naughtons Pools and Spas started in 1994 and is now owned by Justin Hatfield, Damian Oliver and Matt Martin who have been in the business for the last six years. Within the last three years, Naughtons Pools and Spas has opened a new store and operates out of Shepparton, with an award-winning three-pool display centre. They build up to 100 compass fibreglass pools and 20 concrete pools per year, stretching across country Victoria and southern New South Wales. Naughtons Pools and Spas aims to

satisfy the requests of all their clients by incorporating energy-efficient control systems with timeless designs.

Naughtons Pools and Spas is a proud member of SPASA and HIA and has been recognised with many accolades over the years. The featured pool was honoured with the 2012 SPASA gold award for Best Concrete Pool by a Country Member. Naughtons Pools and Spas has also been recognised with the title of Best Pool Shop in Victoria.
